THE MÉXICO LOOKBOOK 2022-23

CENTURYLAMINATES®
my design. my style.

THE MÉXICO

LOOKBOOK

2022 - 23

INTRODUCTION

The new edition of the Century Laminates Mexico Lookbook is here. With better designs, richer colours, deeper textures and an all new outlook. The New Mexico lookbook will bring out the artist in all of us. The use of our collection of designs can turn your interiors into a canvas for your imagination. Give every space a picture perfect look and convert every object into a masterpiece. To give you more choices we have added 25 new designs to this edition. So go on and let the artist in you take charge to add beauty to your home and turn it into a work of art. And when your world of admirers look in awe, tell them proudly : “It’s my design, my style.”

VIROKILL

Kills 99.99% Viruses

CenturyLaminates with Virokill has highly activated and energized nanoparticles which physically ruptures and kills microbes and thereby keeps surfaces safe and hygienic.

Anti-Viral

- Anti-Microbial
- Anti-Bacterial
- Anti-Fungal

99.99% Protection Ensuring a Hygienic & Safe Environment*

- Non-Toxic
- Sanitizable
- Effective
- Long-Lasting
- Thermo-Stable

*Standard terms & conditions applicable.

UNA MIRADA AL INTERIOR

Century Plyboards (India) Ltd. (CPIL), makers of the well-known 'CenturyPly' brand of Plywood, Century Laminates and Century Veneers brands, was set up in 1986 in Kolkata, a joint effort of Mr. Sajjan Bhajanka and Mr. Sanjay Agarwal. The largest seller of plywood and decorative veneers in the Indian organized plywood market, CenturyPly has created a special niche for itself in the industry.

CPIL believes in being 'first' in whatever it does. It has the distinction of becoming the first ISO 9002 company in India for Veneer and Plywood. It has recently joined CII and Indian Green Business Council as a founder member to promote the green building movement. Beside this CPIL has proved to be the pioneer in number of ways. In 1997, it was the first to introduce the borer proof plywood in India. CPIL has, over the years, maintained a consistent growth rate. It has been adjudged the Fastest Growing Company with the Highest Turnover by the famous Journal 'Construction World' for six consecutive years. The Centre for Monitoring Indian Economy (CMIE) and Economic Times has also given CPIL the top position in its surveys and listings.

CUIDADO Y MANTENIMIENTO

CÓMO CUIDAR SUS LAMINADOS

No coloque sartenes o ningún tipo de plato caliente sobre el laminado. Proteja la superficie de altas temperaturas.

No utilice cuchillos, navajas, llaves u otros objetos filosos directamente sobre el laminado decorativo. Se recomienda Una tabla para cortar.

Para limpiar la superficie utilize un trapo húmedo o franela y un Jabon neutro.

Manchas difíciles como el café o el té pueden ser eliminadas usando limpiador para el hogar o detergente y un cepillo de cerdas suaves.

Limpiadores con abrasivos pueden dañar el acabado del laminado de manera permanente por lo que no se recomienda su uso.

Detergentes y limpiadores de baño pueden contener químicos que pueden dañar la superficie permanentemente. Si por algún motivo hay derrame del líquido, limpie con una franela, agua y jabón neutro y enjuage varias veces.

Si las manchas persisten, utilice una mezcla de bicarbonato de sodio y agua y aplique con un cepillo de cerdas suaves. De 10 a 20 pasadas debera remover gran parte de las manchas. El bicarbonato de sodio es un abrasivo bajo, pero el exceso de boleadas o mucha fuerza en ellas puede dañar la superficie decorativa. Especialmente si tiene un acabado brillante.

Fibra de acero y abrasivas pueden dañar los laminados. No los utilice para limpiar y no las deje sobre las superficies de laminado ya que estas pueden dejar manchas de óxido.

Tintes para pelo, textiles o de alimentos pueden causar manchas permanentes. Si cualquier colorante se derrama por accidente límpielo inmediatamente con un detergente para platos o un limpiador multiusos.
